RE: Exhibiting at EXFOR® 2005
World's largest annual exhibit of technology for the pulp & paper sector and other allied industries.

As a major supplier to the industrial sector, it gives us great pleasure to offer your company the opportunity to exhibit in EXFOR® 2005 – the world's largest annual exhibition of technology for the pulp and paper sector and other major industries. Sponsored by the Pulp & Paper Technical Association of Canada (PAPTAC), EXFOR® will take place February 8 – 10, 2005 at the Montreal Convention Center. With 420 exhibitors attracting 10,203 registered papermakers, engineers and executives from 29 countries in 2004, EXFOR® is an integral part of your strategy for success. ActivExpo Inc. manages EXFOR® for PAPTAC.

In 2005, EXFOR® is celebrating its 47st anniversary and, in terms of audience profile, of the 10,000+ registered individuals every year:

- 70% are Canadian, 25% US, and the remainder from 27 other countries.
- 80% are from the pulp & paper sector with the balance representing other major industries (i.e., sawmilling/waferboard/OSB, packaging, mining, petro-chemical, iron/steel/aluminum, municipalities etc...).
- senior and experienced with 19 yrs (average) in the business.
- 75% are return and **25% first-time customers every year.**
- 91% rate event as being from quite to extremely beneficial.
- **43% attend only EXFOR every year,** thus you won't see them elsewhere.

In 2005, EXFOR® is the major pulp and paper/industrial event in North America providing you proven sales and marketing opportunities.

Recently Trade Show Week (TSW) magazine recognized EXFOR® as **one of the 50 fastest growing shows in North America** – quite an accomplishment during these challenging economic times.

Please find attached the Exhibitor Space Contract and floor plan with space vacancies. **To reserve an exhibit space in EXFOR® 2005, please note the following:**

1. Unlike previous years, EXFOR® 2005 is now all on one floor - the newly expanded Exhibit Hall on Level 2. **Refer to plan attached for space vacancies.**
2. Each 10' x 10' (3m x 3m) booth cost \$1,900 Cdn/\$1,560 US plus taxes. A drape divider, name sign (on request) and carpet cleaning are included.
3. Consult the exhibitors list hereafter or visit www.activexpo.com (click onto EXFOR logo) to avoid competitors.
4. Enter four (4) booth locations, in order of priority, on the Exhibitor Space Contract (see attachment).
5. Complete, sign and return (**fax 514 426-5073**) the Exhibitor Space Contract today.

IMPORTANT

To exhibit in EXFOR® your company MUST be a "Sustaining Member" of the "Pulp and Paper Technical Association of Canada" (PAPTAC).

For membership benefits/services/fees, please contact Miss Marie Fortin at (514) 392-6955 (tech@paptac.ca) or visit www.paptac.ca for online services.

ACT NOW. Please note that vacant spaces will be allocated on a first-come, first-served basis (date and time space contract is received).

An invoice will be forwarded to you upon booth approval. Please note the space fee on the Exhibitor Space Contract. We will reserve your space until the payment due date (payment is due upon receipt of invoice) - after which the space will be made available to others. Once payment is received, you will be forwarded a complete exhibitor kit containing details and order forms from all the supplier companies (decorator, freight, customs, electricity, audio-visual etc....).

For additional information on PaperWeek International and its exhibition EXFOR® 2005, please visit www.paptac.ca (PaperWeek) or www.activexpo.com (exhibitor list, floor plans). **Discover EXFOR® 2005. Most importantly, profits for the industry are forecast to surge** (see attached article - The Gazette, September 22, 2004). **RESERVE YOUR SPACE TODAY.**

Trusting the above is satisfactory. Please don't hesitate to contact the undersigned or Josée Dallaire, jdallaire@activexpo.com (1 800 426-1099/514 426-4010) should additional information be required. Thank you for your continued interest in this world-class event.

Kind Regards.

Every year, over 10,000 individuals representing some 1,500 companies worldwide (29 countries) attend EXFOR®. While attendees are predominantly (80%) from the pulp & paper sector, the remainder represent other heavy industries (i.e., lumber/waferboard/OSB, packaging, iron/steel/aluminum petro-chemical, mining, beverage, municipalities etc...) who need similar technologies.

Below is a sampling (10%) of the companies who buy goods from the 420 EXFOR® exhibitors.

Paper revenues are on a roll

CONFERENCE BOARD MAKES PULP PREDICTIONS

Profits are expected to almost triple to \$3.4 billion by '06 – if loonie stabilizes

CANADIAN PRESS

OTTAWA – Profits in Canada's paper industry are on an upswing after slumping in 2003 and should almost triple to \$3.4 billion by 2006 if the Canadian dollar stabilizes, the Conference Board says.

"The stabilization of the Canadian dollar will translate into price increases for exporters, and growing demand for paper products will boost production," a board official said yesterday in a report on the industry.

"The good news for the industry is that profits have passed

their lowest point," said Louis Theriault, associate director for industrial outlooks.

"However, the recovery will be gradual."

Revenues are expected to rise 8.7 per cent in 2004 and 10.2 per cent in 2005. This growth will offset increases in material costs, producing profits of \$1.2 billion in 2004 and \$2.6 billion in 2005, the board says.

Profits are expected to climb again in 2006 to \$3.4 billion and hold close to that level through the rest of the forecast period, which looks ahead to 2008.

In 2003, weak prices and the

surge in the Canadian dollar restrained exports to the United States, the board said. As a result, profits were all but eliminated, as the industry ended up only \$40 million in the black.

Most of the industry's weakness in recent years occurred in the pulp, paper and paperboard segments of the industry, and they are expected to enjoy the largest rebound.

"The Asian market represents the best opportunity for pulp producers," the board said. "Exports to China now account for 12 per cent of all exports, four times what they were a decade ago."

The most significant risk for the industry remains a further increase in the Canadian dollar. But soaring energy prices also pose a risk, the board said.
